

A close-up photograph of a wooden slat fence panel. The panel is composed of horizontal wooden slats, likely made of cedar or a similar softwood, which are evenly spaced and attached to a vertical metal post. The wood has a natural, light brown finish with visible grain patterns. The metal post is a dark, possibly galvanized steel, and runs vertically through the center of the panel. The background is a plain, light-colored surface, and the lighting is even, highlighting the texture of the wood.
